Skills

- Skill Highlights
- Project management
- Strong decision maker
- Complex problem solver
- Creative design
- Innovative
- Service-focused

Languages

English
Swahili
Nandi
French
Spanish

A Web Engineer dealing with full-stack web development. Experienced with all stages of the development cycle for dynamic web projects. Well-versed in numerous programming languages, including JavaScript, HTML5, PHP OOP, CSS, MySQL. Strong background in project management and customer relations with a focus on developing scalable and well-documented code. I like working collaboratively but can also go on with projects solo. I am excited about joining a product-driven and robust team.

Experience

08/2017 to 11/2021

Web Developer at Oracom, Nairobi.

- Developed project concepts and maintained optimal workflow.
- Worked with senior developers to manage large, complex design projects for corporate clients.
- Completed detailed programming and development tasks for front end public and internal websites as well as challenging back-end server code.
- Carried out quality assurance tests to discover errors and optimize usability.
- Contributed to the in-house UI library to create reusable components that saved over 200 hours of development time per month

Education
